## PROJECT REFERENCE

From this Newsletter, you will notice that project references published is to inform customers on the type of projects that Asiatic Fire System Pte Ltd has embarked on to provide a one stop comprehensive fire fighting solution to all the customers.

### Marine Project #1

The largest crane vessel in the world - **Sleipnir** is designed for worldwide offshore heavy lifting. It is equipped with two cranes of 10,000 metric tonnes lifting capacity each and a reinforced deck area of 220 meters in length and 102 meters in width. The dual cranes provide for heavy lifting capacity both to install and remove jackets and topsides. Furthermore, the cranes can be utilized for installation of foundations, moorings and structures in deep water. **A project by Jurong Shipyard.**

JURONG SHIPYARD  
A Subsidiary of Sembcorp Marine Ltd

### Marine Project #2

The Littoral Mission Vessel (LMV), **Fearless**, was built by ST Marine part of ST Engineering for the Republic of Singapore Navy. ST Engineering very first vessel was built in 2016 and subsequently the balance seven vessels will be ready in operation by 2020. **A project by ST Marine part of ST Engineering.**
