# NEWSLETTER

Greetings from Asiatic Fire System Pte Ltd to all business associates and customers. COVID-19 Pandemic is what everyone is talking about in Year 2020. The presence of the COVID-19 Pandemic has affected the whole world and all mankind. Let us stay safe and strong as we weather through this Pandemic. Even though there is a Pandemic, Asiatic Fire System Pte Ltd has not stop it developments and in this newsletter, to update the new projects that are in progress.

## LATEST – METAL PRODUCTION @ North Link Building

We are pleased to announce the new Metal Production Facility that we added into our portfolio. This facility is located at 10 Admiralty Street, #02-12 North Link Building in a 6,855sqft premises with built in mezzanine floor office while the below space for production. This is not for a new product range for AFS as we have already supplied to the industry standard and customized designs but with this investment to the facility, we are able to make even more special requirement that the market evolves and require. In this facility, we are equipped the basic necessary machines that will enable us to provide the necessary custom requirement. **Meanwhile, we have ordered the fibre laser cutting machine to be housed into this facility to enable us to provide even higher speed and finishing. With this machine, additional features and capabilities can be inco-operated. Stay tuned to our launching.**
